Beginning the return and sharing with the Scheme Manager

For the Scheme Supervisor

Open the return on the FMA's Online Services portal, using their individual RealMe identification and complete a Scheme return.

The portal will display the **FMA - Schemes - Identification** page where the Scheme Supervisor is prompted to enter the Scheme Number. The portal will recognise the Scheme Number and will show the name of the Scheme and confirm it is a default KiwiSaver Scheme.

Select 'Scheme Supervisor' from the list of roles displayed.

The portal will display the Scheme Supervisor's details as well as identify the current Scheme Manager. The Scheme Manager's details will be appended with the personal RealMe details of the person opening the return, who will be required to declare that they are acting on behalf of the Scheme Supervisor organisation. These details are collected from the previous day's edition of the Disclose Register.

Once these details have been confirmed, the portal will display the returns that this combination of Scheme, Scheme Supervisor and Scheme Manager are eligible to file.

Select from the list available. The portal will then verify against the period of report timings available and display the current reporting period. From this comes the opportunity to begin this return for this reporting period.

This action will open the **Before You Begin** page.

In here the Scheme and Scheme Supervisor's details are confirmed and re-stated. More details are added with regards to the Scheme Manager, giving the Scheme Supervisor the opportunity to identify the individual, from the Scheme Manager, who will assist with the compilation of this return. These details are mandatory in order to continue. This will open the **Scheme Membership** page.

At this stage the Scheme Supervisor should save the return and share it with the Scheme Manager.

Select **Save for later**.

Relevant member complaints

The complaints information on this page correspond to Tab 1.2(e) of the Excel reporting template.

If there are no complaints, please select “No” and move to the next section.

For each complaint, record the correct type and sub-type from the lists that are displayed, as well as the description of the complaint, the number of business days taken to resolve the complaint, and how the complaint was resolved.

If there are multiple complaints to be reported, record each complaint separately by clicking “Please enter another complaint”.

Relevant Member Complaints

Please report only on relevant members. Given complaints in the same category may be different, use the description field to explain the nature of this complaint and it's resolution. Please include further information about how the scheme Manager is using complaint information, in the written Supervisors Report.

For the purposes of reporting, Complaints are defined as an expression of dissatisfaction made to, or about, an organisation, related to its products, services, staff or the handling of a complaint, where a response, or resolution, is explicitly or implicitly expected or legally required.

Providers are expected to have primary regard to the substance of the expression of dissatisfaction, which does not have to be framed explicitly, as a complaint, to be dealt with as a complaint. Please enter each complaint separately, one at a time, within this form.

Minimum service obligations

The Minimum service obligations section corresponds to Tab 3 and 3.05 of the Excel reporting template.

While we are not seeking granular information on the number of days within which each SLA is achieved (1, 2, 3, 4, 5, 6-10, >10), we expect that providers will hold this information as required as per the IoA and provide it to the FMA when requested.

Enter the % within obligation only in this form corresponding to each of the obligations both at a gross and net basis and the volume (count and \$ wherever required). Provide explanatory notes in the PDF section of the report.

Gross and net clock – brief

The gross clock starts when a fully completed member application is received and doesn't stop until the application is processed. The net clock starts at the same time as the gross clock but is paused when waiting for information from third parties (Inland Revenue, Supervisor, other providers). Please note that outsource providers such as fund administrators and custodians are not considered third parties. The net clock is restarted on receipt of information from third parties and stops when the application is fully processed.

Minimum Service Obligations

Where Funds Under Management (FUM) is requested, use the value corresponding with the volume count in the rows immediately above.

Member engagement page

Member engagement obligations corresponds to Tab 4 of the Excel reporting template.

For onboarding, the obligation applies to 'default' members only. All other obligations apply to 'relevant' members. See the IoA for definitions.

For the reporting period ending in June, report on the six months from 1 October 1 to 31 March. For the reporting period ending in December, report on the six months from 1 April to 30 September. For each member, the months until the member is engaged starts from the date the member joined the fund.

Enter the number of members engaged within 0-3 months, >3 months, and not yet engaged. The total membership corresponding to each obligation and the % within obligation is automatically calculated by the form.

Member Engagement Obligations

For On Boarding, these obligations apply to default members only. All other obligations apply to relevant members. See IoA for definitions.

For the reporting period ending in June, please report on the 6-month period beginning October 1st and ending March 31st.

For the reporting period ending in December, please report on the 6-month period beginning April 1st and ending September 30th.

For each member, the "number of months till the member is engaged", begins from the date the member joined the fund.

Investment returns page

Summary of investment returns for the six-month period

The Summary of investment returns for the six-month period section corresponds to Tab 8 of the Excel reporting template that captures the return attribution of the default fund by asset class.

Corresponding to each asset class, enter the average asset weighting % of fund, actual investment return % of fund, benchmark average asset weighting % and benchmark return %. Also enter the full benchmark name, benchmark type and brief commentary on relative performance. If there is no commentary to add, please record 'None'. Detailed performance commentary may be provided in the PDF section of the report. The form automatically calculates the gross returns before fees for the fund and for the benchmark, and the variance between the fund and the benchmark for each asset class.
