Statement of reasons

This notice comes into force on 22 July 2022 and is revoked on the close of 22 July 2027.

This notice exempts The City of London Investment Trust plc (the **exempt entity**) from certain financial reporting obligations in Part 7 of the Financial Markets Conduct Act 2013 (the **Act**), including—

- section 460 of the Act to the extent that the section requires the financial statements that are prepared to comply with New Zealand generally accepted accounting practice (**NZ GAAP**) and to be dated and signed by 2 directors (or, if the entity has only 1 director, by that director);
- sections 461D and 461G of the Act (which relate to auditing).

The exemptions are subject to conditions that require the exempt entity to prepare financial statements that comply with the financial reporting requirements of the United Kingdom (the **UK**). The main effects of the exemptions for the exempt entity are as follows:

- the financial statements that are prepared will comply with generally accepted accounting principles in the UK (**UK GAAP**) rather than NZ GAAP;
- those financial statements will be audited by an auditor who is qualified or permitted under the laws of the UK to give an opinion as to whether the financial statements comply with UK GAAP (a **UK approved auditor**);
- if the exempt entity has a New Zealand business, those financial statements will be accompanied by separate financial statements for the New Zealand business that comply with NZ GAAP or UK GAAP;
- those New Zealand business financial statements (if any) will be audited by a qualified auditor (as that term is defined in the Act) or a UK approved auditor, and if those statements are prepared in accordance with NZ GAAP, that audit must be carried out in accordance with New Zealand auditing and assurance standards.

The Financial Markets Authority (the **FMA**), after satisfying itself as to the matters set out in section 557 of the Act, considers it is appropriate to grant the exemptions because—

- the exemptions are only available, if the financial products of the exempt entity have a primary listing on the London Stock Exchange (the **LSE**), which is regulated by the laws of the UK, where the FMA is satisfied that the financial reporting required or permitted, and the nature and extent of regulatory oversight for the exempt entity and its auditor, are of high quality. As such, investors in the exempt entity will have access to financial information that will enable them to make informed decisions about their investments;
- the costs associated with the exempt entity having to prepare and audit financial statements in accordance with the financial reporting requirements of the UK, in addition to the costs associated with preparing NZ GAAP compliant financial statements audited by a New Zealand qualified auditor, would outweigh the benefits to investors in receiving financial statements prepared according to NZ GAAP rather than UK GAAP;
- the Financial Conduct Authority (the **FCA**), the conduct and prudential regulator for the exempt entity in the UK, is an ordinary member of the International Organization of Securities Commissions (**IOSCO**) and a signatory to the IOSCO Multilateral Memorandum of Understanding Concerning Consultation and Cooperation and the Exchange of Information. The FMA will therefore be able to seek assistance from the FCA if any compliance concerns arise in relation to the exempt entity or its auditor;
- for these reasons, the FMA is satisfied that granting the exemptions is desirable in order to promote the purposes of the Act. Specifically, that the exemptions will avoid unnecessary compliance costs and promote flexibility in the financial markets:

- given that the exemptions only apply if the exempt entity is listed on the LSE and is required to prepare financial statements and is subject to audit oversight that are of high quality, and that the exemptions only allow the use of UK GAAP in place of NZ GAAP with respect to the preparation of its financial statements and allow those financial statements to be audited by a UK approved auditor rather than a New Zealand qualified auditor, the FMA is satisfied that the exemptions are not broader than is reasonably necessary to address the matters to which they relate.
