- the exemption is necessary or desirable in order to promote the purposes of the Act, and
- that the extent of this exemption is not broader than is reasonably necessary to address the matters that gave rise to the exemption,

2. Interaction with customers should be via remote means wherever possible;
3. Face to face customer interaction continues to be permitted for essential financial services only;
4. Over the counter transactions are to be completed at distances of over one metre and only if increased hygiene in these areas can be ensured including the use of hand sanitiser, Perspex screens and face coverings;
